The initial front row will be given two (2) attempts at a clean start. After the second attempt, BOTH cars will be moved back one (1) row.

4.02: Green Flag - Re-Starts

The Green Flag will be displayed at some point coming out of turn four (4) at the flagman's discretion. The flagman controls the re-start, not the first place car. All re-starts will be single file through the cone positioned on the front straightaway. Single file is described as follows, must keep your car within the frame work of the car in front of you. Once the Green Flag is displayed to re-start the race, passing is not allowed until after the cone positioned on the front straightaway.

Caution flags are not counted at Dixon Speedway, Delta Speedway, Plaza Park Raceway, and Lemoore Raceway; therefore do not race to the yellow flag. The position of the cars for a re-start will be the same position held by each car of the last lap completed under green flag conditions.

4.04: Blue Flag With Diagonal Yellow Stripe – Signifies Hold Your Position

This flag is displayed to cars being lapped by the leaders of the race. Signaled cars should hold their racing line and not try to block the leaders. 4.06: Black Flag – Report Immediately To The Infield

When the black flag is displayed to a driver, the driver must report to the infield immediately and stop their car. A track official will contact the driver, at the next available moment and give the reason for the black flag. Failure to obey the black flag will result in the scoring of that car to be discontinued until further notice.

4.07: White Flag – Race Leader Has Started His/Her Last Lap

When the white flag is displayed, it means the race leader has started his/her last lap.

4.08: Checkered Flag – Completion Of The Race

When the checkered flag is displayed, it means the race is completed. When the required distance has been completed by the lead car, the race will be declared "official" regardless of any flag being displayed. When the checkered flag has been given to the leader, the balance of the field receives the checkered flag in the same lap. Finishing positions will be awarded according to

California Speedweek Rules

the most laps traveled in the least time, whether the car is still running or not.

4.09: Red And Yellow Diagonal Flag

The red and yellow diagonal flag will be displayed when there is a spin or tangle on the first lap of the event. The cars will line up in their original order with the car(s) involved starting in the rear.
